

WAJAHAT NAQVI

Full-Stack Software Engineer — Shopify Specialist

Lahore, Pakistan | +92 320 4564409 | wajahatalinaqvi929@gmail.com

wajahatalinaqvi.github.io | linkedin.com/in/wajahatnaqvi-developer

PROFESSIONAL SUMMARY

Full-stack Software Engineer with a strong specialization in Shopify app development. Builds React.js front ends alongside Laravel (PHP) and MySQL back ends, applying a service-based MVC architecture with controllers and models to build REST APIs and business logic — including integrations with Stripe (payments), ShipStation (shipping and fulfillment), and Twilio (SMS and communication). Experienced with Shopify OAuth, REST and GraphQL API integrations, Theme App Extensions, Checkout UI Extensions, Shopify Liquid, and the Shopify Asset API. Strong focus on building responsive, high-performance interfaces for e-commerce merchants.

EXPERIENCE

Shopify App Developer — Swishtag

Jul 2023 – Present

- Built Label Lock, a custom Shopify app enabling merchants to lock store content — products, collections, cart, and pages — using a passcode and customer-specific (email-based) access controls.
- Implemented theme-level customizations using the Shopify Asset API with read/write access.
- Integrated Shopify GraphQL to dynamically inject and manage access-control logic within storefront themes.
- Designed a clean, intuitive merchant-facing admin interface using Shopify Polaris.
- Contributed to Bundilo, a bundle-builder app, implementing Theme App Extensions and improving UI/UX for product-selection and bundle-creation workflows.

Angular Frontend Developer — Infomatics

Jan 2023 – Jul 2023

- Developed and maintained responsive user interfaces using Angular, translating design requirements into functional, reusable components.
- Integrated REST APIs to connect frontend views with backend services, ensuring reliable data flow across the application.
- Collaborated with the team to troubleshoot and resolve frontend and API integration issues.

PROJECTS

RSNL Supply — Shopify Store | rsnlsupply.com

Tech: Shopify Liquid, HTML, CSS, JavaScript

- Developed and customized a Shopify storefront from the ground up using Liquid, HTML, CSS, and JavaScript.
- Built responsive UI components and dynamic sections, improving overall user experience and theme performance.

Bundilo — Bundle Builder | apps.shopify.com/bundilo

Tech: React, Shopify Polaris, Theme App Extensions

- Public Shopify app for merchant bundle creation; contributed frontend development and Theme App Extension integration for seamless storefront embedding.

Full-Stack Web Application

Tech: Laravel (PHP), MySQL, React.js

- Built backend services using Laravel's MVC architecture (controllers and models) to handle business logic, REST APIs, and authentication.
- Integrated third-party services including Stripe for payment processing, ShipStation for shipping and fulfillment, and Twilio for SMS-based communication.
- Connected a React.js front end to the Laravel backend via REST APIs, delivering a complete service-based full-stack application.

SKILLS

Frontend: React.js, JavaScript (ES6+), Shopify Polaris, Material-UI, HTML5, CSS3

Backend: Laravel (PHP), REST APIs, Authentication, MySQL

Shopify: Shopify App Development, Theme App Extensions, Checkout UI Extensions, Shopify Liquid, Shopify Asset API, Shopify OAuth, Shopify GraphQL

AI-Assisted Development: Claude, GitHub Copilot, OpenAI Codex — for faster coding, debugging, and code review

EDUCATION

Bachelor of Science, Computer Science — Superior University

2019 – 2023

Intermediate — Superior College

2017 – 2019

Matriculation

2014 – 2016

LANGUAGES

English (Conversational) | Urdu (Native)
